

NEV-R-ADJUST[®]

FORWARD SELF-ADJUSTING ELECTRIC BRAKES

**STOP WITH
CONFIDENCE.**

SAVES TIME & MONEY

- » Eliminates manual brake adjustments
- » Retrofits to existing Dexter axles or other manufacturers
- » Stay on the road longer with less downtime for maintenance

PREMIUM BRAKING PERFORMANCE

- » Maintains optimum brake adjustment
- » Engineered and tested to ensure premium performance

THE INDUSTRY STANDARD

» THE SAFER CHOICE

Dexter brakes are proudly manufactured in the USA giving you the confidence that when the rubber meets the road, you know the brakes on your trailer have your back.

Nev-R-Adjust brakes have been rigorously tested to CSA standards up to 8,000 lbs. capacity to ensure that your next stop won't be your last.

» STOPPING POWER

Nev-R-Adjust brakes have been proven to reduce stopping distances up to 50% versus improperly adjusted brakes, keeping you out of harm's way.

» ADJUST AUTOMATICALLY

Nev-R-Adjust brakes automatically adjust during normal brake actuation to proper clearances during travel allowing you to stop with confidence, eliminating the need for repeated, time consuming manual adjustments.

» AVAILABILITY:
