INNOVATIVE TRAILER SAFETY

» THE FIRST COMPREHENSIVE TRAILER SYSTEM

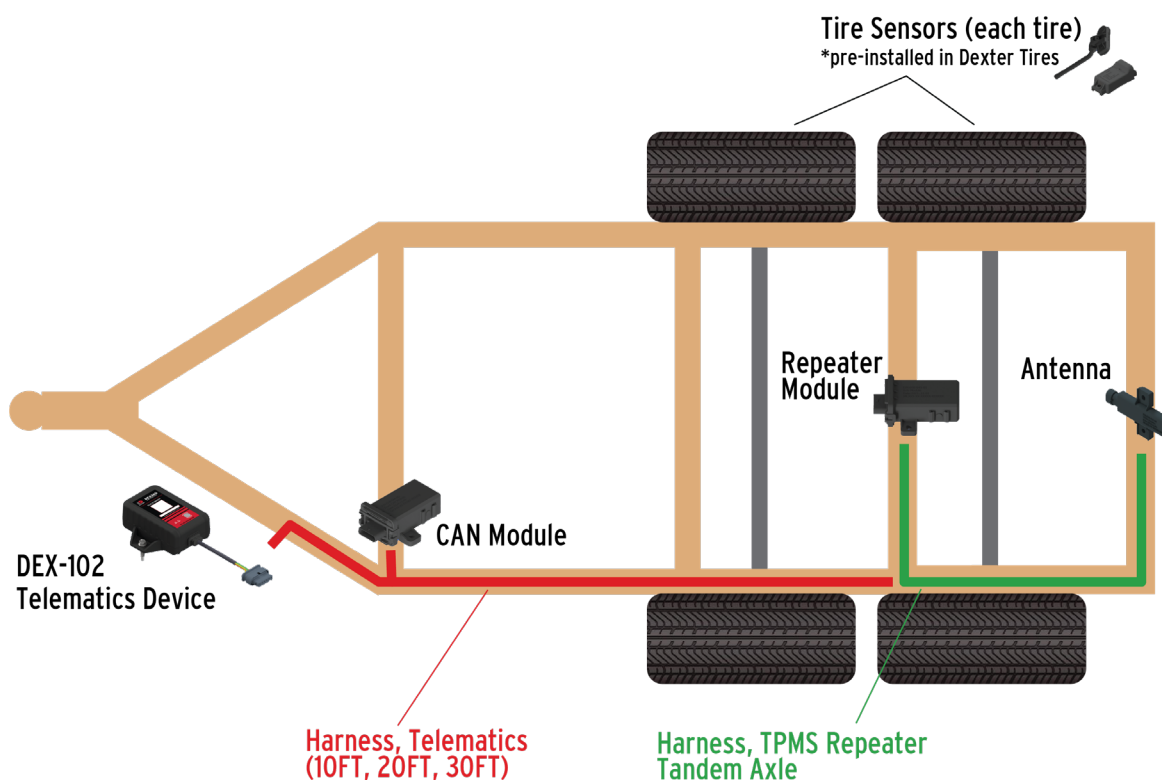

Introducing Dexter's DEX360 Smart Trailer System—a revolutionary solution designed for safety, security, and confidence on the road. With advanced tracking and real-time monitoring, DEX360 keeps your trailer protected and performing at its best.

» REVOLUTIONARY INNOVATION

The DEX360 Smart Trailer System is a new, innovative system designed to give drivers peace of mind, knowing their trailer is secure and operating safely. Dexter has long been at the forefront of integrating advanced automotive technologies into the trailer industry. With the DEX360 system, Dexter continues to lead the market, bringing your trailer a new level of safety, security, innovation, and convenience.

Features like a virtual odometer, geofencing security with GPS tracking, and real-time monitoring of essential components—such as tire pressure and battery level—ensure that Dexter has your back, providing confidence on every journey.

SAFETY AT THE FOREFRONT

» TIRE PRESSURE MONITORING

A flat tire can ruin any trip. With DEX360, you'll receive instant app alerts for low tire pressure, allowing you to take action before minor issues turn into major problems—ensuring a safer, worry-free journey.

» GEOFENCING

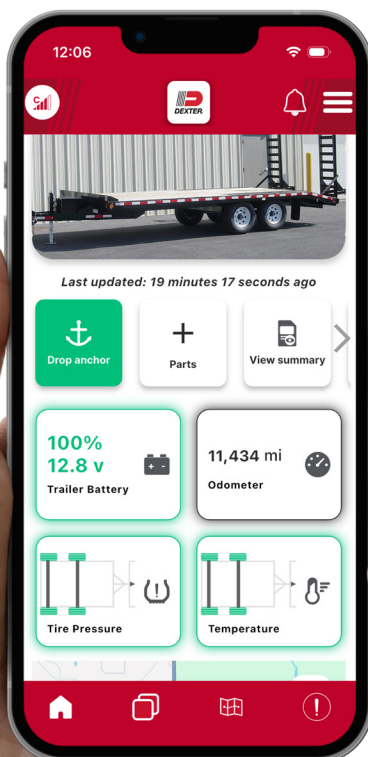

DEX360's geofencing lets you track your trailer's location 24/7. Get notified instantly if it's moved from its designated spot, eliminating the worry of theft or unauthorized movement.

» MAINTANCE MILESTONES

The DEX360 Virtual Odometer alerts you to key maintenance milestones, helping you address issues before they become problems.

» BATTERY MONITORING

With DEX360, you'll receive timely notifications of low battery levels, giving you the opportunity to recharge before it affects performance. Whether you're hauling with a dump trailer or hitting the road in your RV, DEX360 keeps you powered and ready for the job.

FEATURES:

- » Internal Tire Pressure (TPMS) - Self-learning system with low-pressure alerts.
- » Internal Tire Temperature - High-temperature alerts for added safety.
- » GPS Drop Anchor - Sends push notifications if the trailer moves from its marked location.
- » Virtual Odometer - Enhances maintenance awareness with precise tracking.
- » Battery Charge Level - Displays real-time state of charge.

BENEFITS:

- » Asset Management - Track and monitor multiple trailers in real time.
- » Trip History - Records trailer travel data.
- » Dual Connectivity - Supports Bluetooth and LTE (cellular).
- » Comprehensive Consumer App - Available for Apple and Android.
- » Full-Feature Web Portal - Access all features online.
- » CarPlay Integration - Enhances safety and convenience while driving.
- » 2-Year Limited Warranty

ADVANCED TECHNOLOGY

» DEX360 MOBILE APP

The DEX360 mobile app puts trailer safety at your fingertips. The app offers powerful features, including:

- Instant access to monitor critical trailer components via Wi-Fi and Bluetooth.
- Live GPS tracking and trip history.
- Over-the-air (OTA) push notifications for real-time updates.
- Available on Google Play™ and the Apple App Store®.
- Maintenance milestones to keep your trailer in top condition.

**Some features only available with subscription purchase*

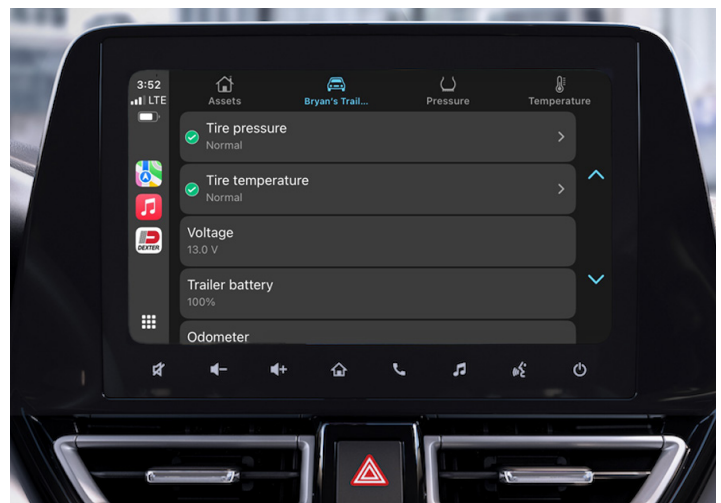

» ASSET MANAGEMENT

The DEX360 Web Portal provides real-time access to trailer locations, maintenance milestones, and alerts—all in one convenient web app.

- Enhances efficiency for trailer monitoring.
- Group trailers into one or separate organizations.
- Receive notifications to keep your trailer fleet running smoothly.

» CARPLAY

- DEX360 CarPlay App can be downloaded to optimize the in-vehicle experience, making for a safer and easy-to-use system while driving.
- The CarPlay feature will show drivers notifications while on the road to manage your trailer and alerts in real-time.
- Utilization of CarPlay minimizes distractions from your phone and keeps you focused on the road.
