

DEXAIR™

AIR SUSPENSION SYSTEM

UPGRADE YOUR RIDE.

LET YOUR TRAILER RIDE ON AIR

- » Long lasting cushioning, even in the harshest environments
- » Protect your cargo with pressurized heavy duty shocks
- » Suspension matches cargo weight with automatic air pressure adjustment

SAVE TIME + MONEY

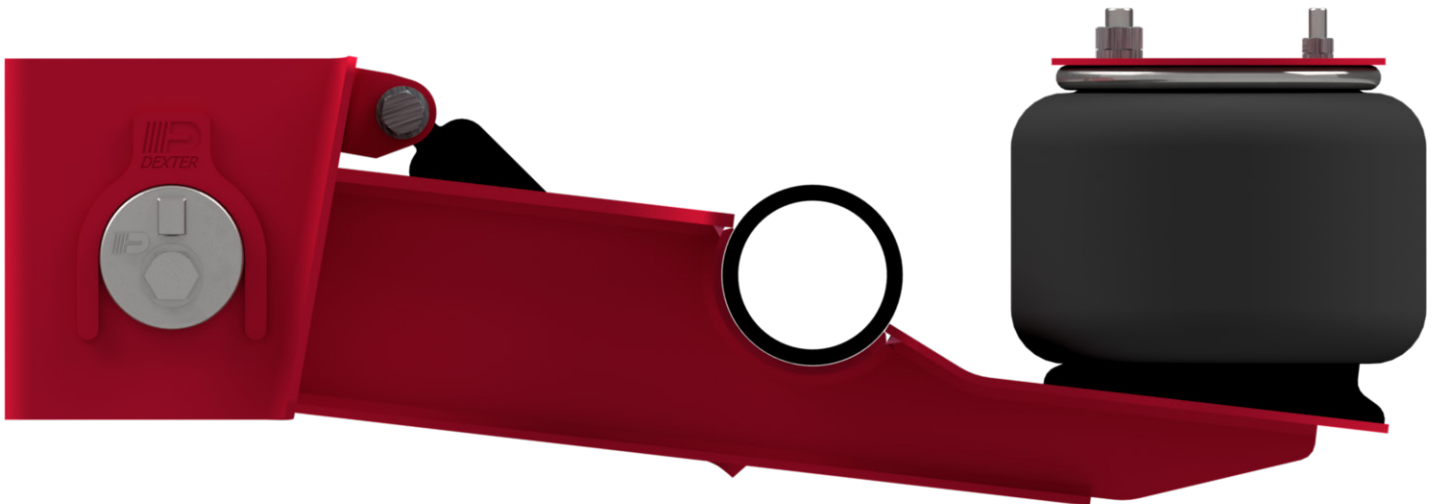

- » Trailing arms welded to the axle according to customer specifications
- » Utilizes components of higher capacity air systems
- » Backed by Dexter's 5-year warranty

SUPERIOR RIDE QUALITY

» SMOOTHLY GET TO YOUR DESTINATION

- Protects your cargo, preventing damage and expensive repair costs
- Air pressure equalizes between the axles, regardless of axle spacing, avoiding individual axle overload
- Providing industry leading engineering and product support for both axle and air system
- Backed by a 5-year warranty on axle and suspension system through one company
- Maximize tire life with alignment adjustments up to 3/4"
