» WIDER DECK AND BUILT TO LAST

- Create a wider trailer deck with D80N and #13N narrow overhang axle offering:

AXLE TYPE	D80/#13N MIN. OVERHANG	D80N/#13N MIN. OVERHANG	ADDED DECK SPACE
Sprung	16.00"	14.00"	2"
Torsion	17.00"	14.15"	2.85"

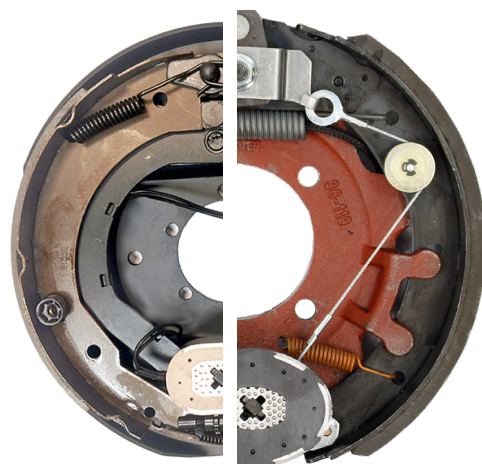

- With running gear truly rated to 8,000 lbs. capacity, the D80N and #13N can withstand the rugged environment of a fully loaded trailer, keeping your trailer on the road longer
- Components are manufactured in-house, giving you the proven performance you have come to expect from Dexter

» INCREASED STOPPING POWER

FEATURE	OTHERS	DEXTER	BENEFIT
Capacity	7,000 lbs.	8,000 lbs.	Carry heavier load, with longer service life
Design	Backing Plate	Spider	Spider design doesn't flex under load
Lining Thickness	7/32"	14/32"	Brakes can tolerate longer braking events
Magnet	Basic Magnet	Patented Oval Design	Increased magnet surface area results in faster brake response
Standard Features	FSA optional only	Nev-R-Adjust	Automatically adjusting brakes provide optimum brake performance and less downtime for maintenance
