Subject: Introduction of the Triple E-Z Flex® Heavy Duty Rubber Equalizer Suspension System

Dexter Axle is pleased to announce the introduction of our Triple E-Z Flex® Heavy Duty Rubber Equalizer Suspension System. The E-Z Flex® System simply replaces the standard equalizer and works with the trailer's existing leaf springs to improve ride performance. During travel, the E-Z Flex® System pivots and compresses to isolate and absorb damaging road shocks before they are sent to the trailer's frame and contents. The resulting performance can deliver up to an 80% reduction in trailer vertical acceleration when compared to a standard equalizer.

E-Z Flex® Features:

- ▶ Resilient rubber core isolates and absorbs damaging road shocks
- ▶ Delivers smoother towing than traditional leaf spring suspensions
- ▶ Retrofits to existing leaf spring suspensions by replacing the standard equalizer
- ▶ Easy installation requires NO welding or cutting of the trailer's frame or hangers
- ▶ Unlike competitive products, E-Z Flex® will not change the ride height of your trailer
- ▶ Available in 33" and 35" sizes for use on tandem and triple axle trailers
- ▶ Backed by Dexter's standard two-year limited warranty

E-Z Flex® Equalizer & Bolts:**K71-658-00 for 33" axle centers and axles up to 6,000 pounds capacity –**

In the attaching parts kit A/P-335-00, E-Z Flex® equalizer 013-143-03 replaces the existing 013-104-02 equalizer while 013-145-03 replaces 013-105-02. The K71-658-00 kit includes:

Dexter Part No.	Quantity	Part Description
006-007-01	4	Hex Lock Nut $\frac{9}{16}$ "-18 Plated
007-003-01	4	Shackle Bolt - $\frac{9}{16}$ "
013-143-03	2	Equalizer Assembly
013-145-03	2	Triple Equalizer Assembly
059-863-00	1	Instruction Sheet

K71-659-00 for 35" axle centers and axles up to 8,000 pounds capacity –

In the attaching parts kit A/P-364-00, E-Z Flex® equalizer 013-144-03 replaces the existing 013-122-02 equalizer while 013-146-03 replaces 013-126-02. The K71-659-00 kit includes:

DX Part No.	Quantity	Part Description
006-007-01	4	Hex Lock Nut $\frac{9}{16}$ "-18 Plated
007-003-01	4	Shackle Bolt - $\frac{9}{16}$ "
013-144-03	2	Equalizer Assembly
013-146-03	2	Triple Equalizer Assembly
059-863-00	1	Instruction Sheet

Complete E-Z Flex® Suspension Kits:

K71-656-00 for 33" axle centers and axles up to 6,000 pounds capacity –

In the attaching parts kit A/P-335-00, E-Z Flex® equalizer 013-143-03 replaces the existing 013-104-02 equalizer while 013-145-03 replaces 013-105-02. The K71-656-00 kit includes:

DX Part No.	Quantity	Part Description
006-007-01	4	Hex Lock Nut - 9/16"
006-092-01	18	Hex Lock Nut - 7/16"
007-003-01	4	Shackle Bolt - 9/16"
007-187-00	6	Step Bolt, Wet - 7/16"
013-143-03	2	Equalizer Assembly
013-145-03	2	Triple Equalizer Assembly
014-077-00	12	Bronze Bushing
018-024-01	6	Shackle Link
018-026-00	6	Shackle Link Assembly
059-867-00	1	Instruction Sheet

K71-657-00 for 35" axle centers and axles up to 8,000 pounds capacity –

In the attaching parts kit A/P-364-00, E-Z Flex® equalizer 013-144-03 replaces the existing 013-122-02 equalizer while 013-146-03 replaces 013-126-02. The K71-657-00 kit includes:

DX Part No.	Quantity	Part Description
006-007-01	4	Hex Lock Nut - 9/16"
006-092-01	18	Hex Lock Nut - 7/16"
007-003-01	4	Shackle Bolt - 9/16"
007-187-00	6	Step Bolt, Wet - 7/16"
013-144-03	2	Equalizer Assembly
013-146-03	2	Triple Equalizer Assembly
014-077-00	12	Bronze Bushing
018-024-01	6	Shackle Link
018-026-00	6	Shackle Link Assembly
059-867-00	1	Instruction Sheet

Installation Note

Hangers with reinforcement welds may interfere with the grease zerks; however this represents a small portion of the hangers that Dexter sells. A change has been made to future hangers, but retrofit applications may require the interference to be ground off. Please see the kit installation literature for additional details.

Please contact your Dexter Sales Engineer for additional questions, ordering information, and product availability.
