

Date: February 1, 2011

Subject: Obsolescence of 35mm Nev-R-Lube® Bearing Option

Due to low demand and the inordinately high minimum order quantity requirements from the bearing supplier, effective March 1, 2011, Dexter Axle will suspend further production of the 35mm Nev-R-Lube® bearing option currently being offered in our D35 and #10 model axles (3,500 lb. capacity). We will continue however, to service existing axles and provide replacement parts as needed.

Service Part Number Description

008-386-80	Hub/Drum with 35mm cartridge bearing installed
021-084-00	Grease cap
031-072-03	35mm cartridge bearing
069-094-00	Bearing retainer

We regret any inconvenience this may cause. Please contact your Dexter Sales Engineer if you have additional questions or need further assistance.
