Subject: New 2" Square Tube "M-Series" Leaf Spring Axles

In keeping with our continual commitment to product innovation, Dexter Axle is pleased to announce the release of the M-Series axle developed for use in the marine industry. This new series of galvanized axle will be offered in 2,200 and 3,500 lb. capacities and is now available for shipment.

Standard features of the M-Series axle include:

- Available in M-22 (2,200 lb. capacity) and M-35 (3,500 lb. capacity)
- 2" square galvanized tube
- Straight E-Z Lube® spindles only

Optional features of the M-Series axle include:

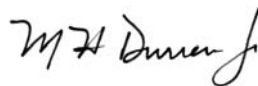

- Drop center axle
- Stainless steel wear sleeves on seal journal
- Marine grade GAL-DEX™ coated hubs and hub-drums
- 10" corrosion resistant hydraulic free backing brakes on M-35

GAL-DEX™ is a galvanic coating used for corrosion protection of equipment in marine applications and offers a minimum of 1,000 hours of salt spray protection.

In addition to the M-Series axles, our standard sprung and Torflex® axle lines will be offered with galvanized beams and GAL-DEX™ coated hubs.

Please contact your Dexter Sales Engineer with additional questions and ordering information.
