Subject: Axle Label Change

We are making a running change to the one-part label currently being affixed to each axle. The new label will have two sections. The top section will be attached to the axle tube. The perforated bottom section should be removed and placed on the inside cover of the Operation Maintenance Service Manual to be included with each trailer.

The bottom section will contain the serial number of the axle, Dexter part number if available, capacity of the axle, hub face (HF) and spring center (SC), or outside of bracket (OB) if it is a Torflex axle. This information will be helpful to the end user when needing replacement parts for their axle. Below are examples of the new two-part label.

	DEXTER AXLE COMPANY ELKHART, IN PO: 043221	Dex#: Due: 08/23/11 08 22 11 S1 L1
Fremont, IN	HF=58.00 SC=46.50 D20
