**Subject: Extreme Duty Torflex® Axle EX Bracket Option**

In keeping with our continual commitment to continuous improvement, Dexter Axle is pleased to announce the previously offered 7,000 lb. (#12) and 8,000 lb. (#13) Torflex® axle for extreme duty usage such as the wood chipper market and other applications that have an extreme duty cycle. These axles have a special bracket that helps to relieve the stress load off the rubber cords and is carried by the special bushing. When ordering, specify that you would like the **EX Bracket Option**.

**Drawing of the EX axle bracket:**

Distance requirements between the hub face and outside of brackets.

	Minimum	No Bracket Zone	Maximum
<b>Model #12</b>
