Subject: Genuine Dexter Replacement Grease

In keeping with our continual commitment to offer Dexter Axle genuine replacement parts, we are pleased to announce the addition of Genuine Dexter Grease packaged in a 14 oz. tube.

Dexter Grease has been formulated to be compatible with the wheel bearing grease used during the production of Dexter axles. The red #2 lithium grease has additives for corrosion and oxidation inhibitors. Customers will appreciate the ability to purchase Dexter Grease along with Genuine Dexter Replacement Parts assuring compatibility. Effective January 19, 2015, Genuine Dexter Grease will be sold in case lots of 10 tubes per package; part number 088-012-10.

Please contact your Dexter sales engineer if you have additional questions or need further assistance.
