Subject: New Marine Grade Disc Brake Options (3.5K & 6K)

With the acquisition of UFP (Unique Functional Products) Dexter is pleased to continue expanding our product offering and introduce two of UFP's Marine Grade Hydraulic Disc Brake options available on select series of Dexter axles. Both options are available on the following Dexter 3,500 lb and 6,000 lb rated axles in regular grease or E-Z Lube® configurations:

- 3,500 lb 5-bolt (D35, M35, #10, M10)
 - "Freshwater" Zinc/Zinc: Zinc Plated Integral Hub & Rotor 10" 3.5K 545 Cups & Studs with Zinc Plated Caliper Disc Brake Assy
 - "Saltwater" Zinc/Aluminum: Zinc Plated Integral Hub & Rotor 10" 3.5K 545 Cups & Studs with Aluminum Caliper Disc Brake Assy

- 6,000 lb 6-bolt (D52, D60, D70, #11, M11, #12, M12)
 - "Freshwater" Zinc/Zinc: Zinc Plated Integral Hub & Rotor 12" 6K 655 Cups & Studs with Zinc Plated Caliper Disc Brake Assy
 - "Saltwater" Zinc/Aluminum: Zinc Plated Integral Hub & Rotor 12" 6K 655 Cups & Studs with Aluminum Caliper Disc Brake Assy
