Subject: Pinnacle Low Profile Range Hood

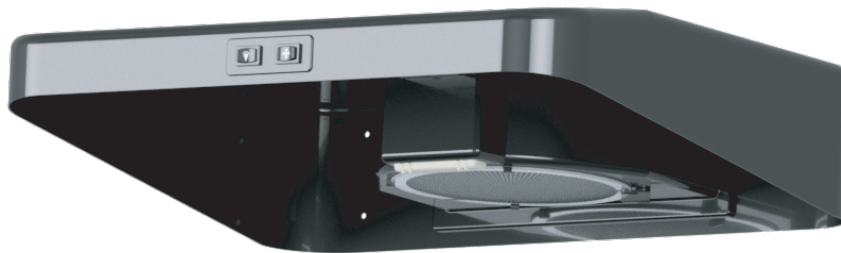

Dexter is pleased to announce the new Pinnacle low profile range hood for the RV industry. Available in 20, 22 and 24" widths, this contemporary styled range hood is a durable one-piece powder coated paint design that resists dents and scratching. The new design has a bright LED light to illuminate the cooking area and a quiet and powerful 12 volt exhaust fan. The new range hood is UL and CSA approved and allows for 15" minimum distance for mounting above a stove.

This range hood is available in black or black with stainless steel trim and includes an easy to remove 7-3/16" round grease filter of washable aluminum mesh. Now available in standard three packs and proudly made in the USA.
