Subject: 5,200 lbs. Hub and Hub-Drum Obsolescence - Axle Production

In an effort to reduce complexity and provide customers with the best product selection, Dexter will no longer offer the 5,200 lb. capacity hub and hub-drum in production axles. Moving forward, axles will be upfitted with the more robust 6,000 lb. capacity hub and hub-drum.

More specifically axle production will no longer use the 5,200 lb. capacity versions of the 008-213-XX and 008-201-XX that utilize the 031-032-01 (LM67010) outer bearing cup and 031-032-02 (LM67048) outer bearing cone but replace with the more robust 6,000 lb. capacity versions using the 031-029-01 (15245) outer bearing cup and 031-029-02 (15123) outer bearing cone. This change increases the bearing capacity and life of product but does not change the axle spindle or how Dexter rates axle models. Wheels are interchangeable between the two capacities since the wheel bolt pattern (6 on 5.5") and wheel hub pilot remain unchanged.

Hub and Hub-Drum Part Numbers Affected in Axle Production:

REPLACING PART #	OBSOLETE PART #	DESCRIPTION
008-213-09	008-213-05	HUB 6K 655 GRS CUPS & STUDS, 15245 OUTER BEARING CUP
008-213-19	008-213-15	HUB 6K 655 ZINC STUDS CUPS & STUDS, 15245 OUTER BEARING CUP
008-213-51	008-213-50	HUB 6K 655 GRS GAL-DEX CUPS & STUDS, 15245 OUTER BEARING CUP
008-201-09	008-201-05	H-D 6K 655 GRS CUPS & STUDS, 15245 OUTER BEARING CUP
008-201-19	008-201-15	H-D 6K 655 GRS ZINC STUDS 15245 OUTER BEARING CUPS & STUDS
008-201-51	008-201-50	H-D 6K 655 GRS MARINE COATED CUPS & STUDS, 15245 OUTER BEARING CUP

Axle Models Affected:

SPRUNG AXLES		TORFLEX AXLES		
D52	S52	#11	S11	M10
D60	S60	#12	S12	M11
D70	S70			M12

Dexter will continue to offer replacement bearing and hub or hub-drum kits to support ongoing service of 5,200 product in the field

Bearing Kits:

PART NUMBER	DESCRIPTION
K71-718-00	5,200 lb. BEARINGS & SEAL KIT W/COTTER PIN
K71-307-00	BEARING CUP & CONE LM67010/LM67048

Note: During service the outer bearing cone or cup should be replaced with like components, as they cannot be interchanged between 5,200 lb. and 6,000 lb. hub or hub-drums.

PRODUCT BULLETIN #479

Ongoing Service Replacement Kits:

PART NUMBER	DESCRIPTION
K08-201-98	KIT H-D 008-201-05 E-Z LUBE 2.25 SEAL
K08-201-97	KIT H-D 008-201-05 GREASE 2.25 SEAL
K08-201-94	KIT H-D 008-201-05 E-Z LUBE 2.125 SEAL
K08-201-90	KIT H-D 008-201-05 GREASE 2.125 SEAL
008-201-98	H-D KIT 5.2K 655 E-Z 2.25 SEAL FOR 008-201-05 LM67048 OUTER BEARING
008-201-97	H-D KIT 5.2K 655 GRS 2.25 FOR 008-201-05 LM67048 OUTER BEARING
008-201-94	H-D KIT 5.2K 655 E-Z 2.125 SEAL FOR 008-201-05 LM67048 OUTER BEARING
008-201-90	H-D KIT 5.2K 655 GRS 2.125 FOR 008-201-05 LM67048 OUTER BEARING
008-201-80	H-D KIT 5.2K 655 CUPPED & STUDDED
K08-213-95	KIT HUB 008-213-05 E-Z LUBE 2.125 SEAL
K08-213-92	KIT HUB 008-213-05 E-Z LUBE 2.125 SEAL
K08-213-90	KIT HUB 008-213-05 GREASE 2.125 SEAL
008-213-97	HUB KIT 5.2K 655 E-Z 2.25 SEAL FOR 008-213-05 LM67010 OUTER BEARING CUP
008-213-95	HUB KIT 5.2K 655 E-Z 2.125 FOR 008-213-05 LM67010 OUTER BEARING CUP
008-213-90	HUB KIT 5.2K 655 GREASE 2.125 FOR 008-213-05 LM67010 OUTER BEARING CUP
