DISCONTINUANCE OF LEGACY UFP DB-42 DISC BRAKES

November 13, 2025

Dexter is discontinuing the production of the DB-42 disc brake product (Legacy UFP). These brakes have not been used with new axles since 2005, and the parts are incompatible with current models. Once the existing inventory is exhausted, DB-42 disc brakes will be unavailable. However, many axles can be upgraded to the Dexter or Kodiak by Dexter disc brakes.
